This is the result of only three
weeks' work. Could anything
be more convincing of its popu-
larity?

What are the reasons of this
popularity?
First and foremost is the fact
that we guarantee every article
you select to be your money's
worth in full.

We guarantee the watches to
be of a certain weight or above,
and we cover the movement
with our "money back" guaran-
tee, if not in every way satis-
factory to you, or we will give
you the range of our show cases
to select from, anything you
may desire, and the cost to you
is only

\$1

a week, until the article is paid
for.

The dollar which slips through
the bottom of your pocket every
week, without anything to show
for it, is the dollar we are after;
guaranteeing a safer investment
than any other scheme that may
be devised. There is nothing
complicated about it; nothing
which needs an explanation.
There should be no cobwebs im-
possible to see through, because
some one interested said so and
so. All that we ask is that you
pay the One Dollar each week
and we guarantee to deliver to
you an article which will be to
your lasting satisfaction.

FOR AN EL DORADO

Another Expedition to
Leave the Coast.

"Mermaid" Fitting Out to Start
About May 1st For
South Sea.

SAN FRANCISCO, March 20.—An-
other band of colonists will tempt
fortune in the South Sea Islands after
the style of the Brotherhood of
the South Seas that left in the Percy Ed-
wards. The new expedition is headed
by no less a personage than the noted
Capt. Alexander McLean, who will
command the vessel which will take
the colonists to the South Seas.

McLean has not been able to find
any daring and risky operation to
busy his mind recently, and an adven-
turous trip to the South Seas will just
suit him. The man who will guide the
colonists to an island where peace and
prosperity are to be found is Captain
Quinton. He has commanded four dif-
ferent vessels running to the South
Sea Islands both from this city and
Sydney. He has been all through the
various groups and speaks the lan-
guage of the natives.

The promoters of the new scheme
are not as secretive as the Brother-
hood leaders were, and talk plainly of
their venture as a business proposition.
Captain McLean, Captain Quinton and
some others have bought the whaling
bark Mermaid, now laid up in Oakland
Creek, and will bring her over to this
city in two weeks to fit up for the trip.
The proposition is to take 150 colonists
down to one of the Solomon Islands in
the bark Mermaid on or about May 1st.
A little after that a good cruising
schooner will be purchased and an-
other band of colonists will go down to
the islands in her. The colonists will
develop the island they select, and the
schooner will be kept there for trading
purposes, while the bark will ply be-
tween the colony and this port.

The bark Mermaid is an old vessel,
but her timbers are strong and well
preserved. All evidences of her hav-
ing been a whaler will be destroyed.
Already most of the whaling tackle
has been taken off the vessel. Between
decks will be fitted up for passengers,
and the bark will take nothing but
colonists and supplies. The promoters
of the scheme have had an advertise-
ment in the papers for a day or two,
and there has been a rush of applicants
already to A. S. Lowndes' office, at 506
Battery street.

Captain Quinton is full of enthusi-
asm about the project. He says that
the Solomon Islands are very rich, and
only want to be developed. He has no
fear of the cannibals, as some islands
have very few inhabitants, and they
live along the shore without ever pen-
etrating into the interior. Captain
Quinton is posted on the resources of
the islands, and gives glowing ac-
counts of the prospects. The islands
are rich in valuable woods and fruits.
Wild goats and hogs roam about wait-
ing to be hunted by enthusiastic sports-
men. Flocks of pigeons darken the
sky, and the waters teem with fish. He
says that there are pearl fisheries
about the waters, and that on one of
the islands there is a copper mine.

As for the cannibals, Captain Quinton's
own words on the subject are:
"There is no particular fear of the
cannibals. I have eaten with them.
They live on wild pigs, game and fish,
except when there is a battle, and then
those slain are eaten just as if they
were pigs or goats. Because they are
cannibals does not indicate that they
are going to kill you in order to eat
you. Where we are going, however,
there are very few natives, and they
are not troublesome. We would out-
number them and they would fear us."

PARNELLITES IN DUBLIN.

Representatives From all Ireland
to Meet in Conference.

LONDON, March 20.—At a meeting
of the Parnellite members of the Par-
liament on Thursday last it was decid-
ed to request John Redmond to call a
conference of representative Parnel-
lites from all parts of Ireland to meet
in Dublin during the Easter week for
the prospects of the party. This step
was rendered necessary by the recent
attitude of Timothy Harrington, and
it is intended to make vigorous efforts,
both in Ireland and America, to
strengthen the party.

The Lord Mayor of Dublin has is-
sued invitations to a meeting at the
Mansion House there to float a Parnel-
lite fund. Already a considerable sum has
been collected for the project and it is
expected it will meet with great suc-
cess. It is learned that not only Mr.
Parnell's mother, but his brother, John
Parnell, are in pecuniary want, and but
for the prompt action of Mr. Redmond
and others they would have lost the
family estate at Wexlow.

Preparations are already on foot in
Ireland to celebrate the centenary of
the rebellion of 1798. A central com-
mittee has been established in Dublin
and it is expected that large numbers
of Irish Americans will participate.

HOW RUIZ DIED.

Official Investigation to be Com-
menced Soon.

WASHINGTON, March 21.—It is ex-
pected by the State Department offi-
cials that the inquiry to be conducted
into the causes leading up to the death
of Dr. Ruiz, the naturalized American,
in a Cuban prison, will soon be com-
menced. The investigation will be con-
ducted in Havana or in the place where
Ruiz was imprisoned, and Consul-Gen-
eral Lee will be present in person or
will be represented by some one to

look after the interests of the family
of Ruiz. Secretary Sherman tonight
expressed the belief that the investi-
gation into the affair will be a thorough
and fair one, assurances to that effect
having been given by the Spanish Gov-
ernment.

SERBIA COMPLAINS OF TURK.
More Trouble for Sultan of Otto-
man Empire.

CONSTANTINOPLE, March 19.—
The Servian Minister here has called
the attention of the Turkish Govern-
ment to the situation of affairs exist-
ing in the Province of Kossovo, where
it is asserted the Christians are panic-
stricken in consequence of the mobil-
izing of the Turkish reserves and Ba-
shi-Bazouks.

The Minister also drew the Porte's
attention to the recent attack upon
Servian and Austrian Consuls in a cafe
at Uskuk, situated about 100 miles
northwest of Salonica, and referred to
the correct attitude observed by Serbia
during the present crisis, expressing
the hope that the Porte would put a
stop to the existing situation, a contin-
uation of which, it is added, may have
serious consequences.

Turkish officials in the Epirus are
forcibly preventing the Greek Rahays
(persons not Mahomedans, who pay
the tax), who are Ottoman subjects,
from leaving Epirus to join the Greek
forces.

HARRISON'S ONE REQUEST.
Wants to Name Public Printer—Re-
quest Granted.

WASHINGTON, D. C., March 19.—
Ex-President Harrison, when he called
upon President McKinley on Wednes-
day, said to him:

"Mr. President, I have one request
to make you, and one only, and it is
that you appoint as Public Printer Mr.
Palmer of Illinois, who served in that
capacity during my administration."

President McKinley assured General
Harrison that his request would be
granted, so it is certain the Palmer
will succeed Public Printer Benedict
as soon as the latter's term has ex-
pired, and perhaps sooner.

Two years ago R. J. Warren, a druggist
at Pleasant Brook, N. Y., bought
a small supply of Chamberlain's
Cough Remedy. He sums up the result
as follows: "At that time the goods
were unknown in this section; today
Chamberlain's Cough Remedy is a
household word." It is the same in
hundreds of communities. Where ever
the good qualities of Chamberlain's
Cough Remedy become known the
people will have nothing else. For sale

WHY IT EXCELLS

FORT COSTA Flour is made
from wheat grown in the cold cli-
mate of Idaho, Montana and Neva-
da, blended with that of the Golden
State. This mountain wheat, blend-
ed in the hopper with a California
production, makes the most superb
flour on earth.

Besides, other mills only buy
what they grind, and grind what
they buy; while **FORT COSTA**
flour is milled from a choice selec-
tion out of the largest accumula-
tion of wheat brought into the San
Francisco market.

FORT COSTA ought to be
superior to other brands of flour:
We stake our business reputation
that it is.
